

Join an international & multi-activity group

Joining REEL's teams involves:

Joining an independent company with over 2500 people, growing and developing both within France and abroad.

Contributing to the completion of highly technical projects in a wide range of fields: nuclear, aeronautics, defense, aluminum, offshore, energy, and other automated industries.

Joining a company that supports the development of the men and women it employs: Reel Academy, personalized careers management, professional & geographical mobility...

Our Expertise

- Design
- Project management
- Engineering
- Manufacturing
- Maintenance...

Our Mission

Is to add value at every step, from engineering and project management, to procurement and manufacturing, to site works and maintenance.

*“Make a
difference right
from the start”*
