HYDROPOWER

Complex Lifting & Handling Systems

REEL COH Inc.

**A VISION
THAT
DELIVERS
TOTAL
EFFICIENCY**

REEL COH is a global leader in delivering complex and robust lifting and handling equipment to industry sectors where safety and reliability are major concerns. As an integrated engineering company, we design, manufacture, install, commission and maintain high-performance solutions adapted to ever-evolving markets and client requirements.

Our track record of excellence and dedicated employees make REEL COH your partner of choice in the hydropower sector. We work closely with our clients to improve their lifting processes by providing solutions that are integrated, sustainable and optimized, both technically and economically.

Our Focus

At REEL COH we provide customized solutions that address industry challenges and complexities for clients in North America. Our end-to-end lifting and material handling equipment and services accelerate your operations, improve overall plant performance and employees' health and safety.

WORKING TOGETHER TOWARDS PERFORMANCE

REEL COH Inc.

WHETHER YOU NEED TO UPGRADE, REPLACE
OR INCREASE CAPACITY, OUR EXPERTS HAVE
THE RIGHT SOLUTION FOR YOU.

High performance, enhanced competitiveness

Our goal is to optimize your processes and performance, while improving your operation and safety. Our broad portfolio of innovative and proven technologies will boost your competitiveness. Continuously investing in new technologies enables us to further sharpen your competitive edge.

We are recognized for our responsiveness, flexibility and deep expertise in hydropower operations. We understand the requirements of your operating environment and tailor our solutions to meet these particular needs.

Our focus to add value at every step, from engineering, project management, procurement and manufacturing to site work and maintenance is your guarantee of the best fitted solution for your application.

Powerhouse cranes operate with high
precision and absolute reliability.
