

REEL announces the acquisition of FLSmidth Hamburg GmbH

REEL announces the acquisition of FLSmidth Hamburg GmbH specialized in materials handling and former company of the FLSmidth A/S Denmark group.

With sixty employees based in Pinneberg near Hamburg, Germany, the activity of this company marketed mainly under the MÖLLER brand focuses on the design, supply, installation and maintenance of complex materials handling equipment for the power, cement and aluminum industry.

It will be joining on January 1st, 2021 the REEL International group under the name **REEL Möller GmbH** and will bring a high level of complementary technical strengths.

This acquisition is an important strategic move for the group, increasing the diversification of the Aluminium Division related technologies in other sectors, such as the power industry.

REEL is an industrial group specializing in complex handling and lifting systems and integrated systems solutions. REEL, with more than 2300 employees, is established on four continents and has experienced an average annual growth of 10% over the last twelve years.
