SERVICE

Lifting & Service
Solutions

The shared experience between our maintenance teams, our design offices and our users is a guarantee of continuous improvement of your equipment.

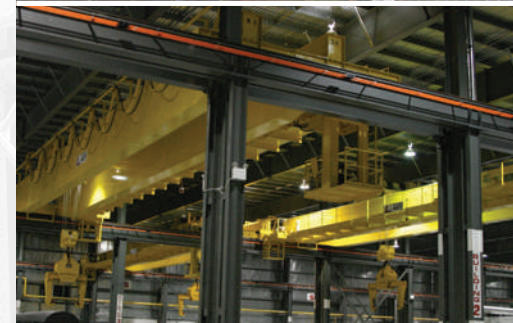

Reel COH can analyze your installations and design a plan adapted to the optimization of your production facilities.

- Preventive, predictive or curative maintenance and interventions

Being the designer and manufacturer allows **REEL COH** to optimize your daily operating costs.

REEL COH can provide support service to help with the production and maintenance of your operating equipment. We can also integrate new technological improvements when the situation allows.

- Our emergency personnel are available 24/7
- Preparation of operations and maintenance documents
- Obsolescence Management
